Guar Gum Powder MG46F

Specification Sheet

Brand Name: MG		CAS# 9000-30-0
Product ID: 46F		
MG 46F is a very coarse off white to pale yellow powder having high viscosity, used in various food and industrial applications where relatively moderate hydration and moderate viscosity is desired. This product attains a cold water viscosity of 2500-3500cps after hydrating for 24 hrs. Product Specification ensured by MG Ingredients are enlisted below :		
CHEMICAL ANALYSIS:		
MOISTURE		13.00% Max
PROTEIN		5.00% Max
ASH		1.00% Max
AIR		5.00% Max
FAT		1.00% Max
GUM CONTENT		78.00% Min
pH		5.50-6.50
VISCOSITY:		
Cold Viscosity, 1% Solution, Brookfield Viscometer, Spindle # 4 @ 20 RPM @ 25° C :		
After 24 Hours		2500-3500 cps
